INDUSTRIAL AND SCIENTIFIC SOCIETY MEETS.

IMPORTANT EMIGRATION COMPANY ORGANIZED.

At the annual meeting of the Alabama Industrial and Scientific Society, held at the Hotel of Birmingham, the past week, officers were elected as follows:

President, M. C. Wilson, of Florence; Vice-President, J. G. Mann, of Birmingham; J. L. Squires, of Helena; J. H. Hite, of Tuscaloosa; J. L. Montgomery, of Birmingham; Treasurer, Henry M. McCall, of Birmingham; Secretary, Eugene L. Smith, of Tuscaloosa.

The society will give a state geological and agricultural exposition next fall at the University of Alabama, where the society will meet.

W. B. Phillips gave an exhaustive account of the operations now being carried on near Leeds by the Sons of the Emancipation, a company of colored men, who are engaged in developing iron ore in the county.

The society's report showed 41 English present out of 76.

SOUTHERN PROGRESS.

The New Industries Reported in the South

The demand for a southern lumber, especially hardwood, is good, the market is strong and every tendency toward higher prices, says the Charleston Trade Journal. The market is getting low. Interior movement is improving; export demand is on the average, better, though something must be done to stiffen foreign prices, particularly on pine.

On the whole, the situation is satisfactory. Southern iron masters would rather see an increased demand at present prices than an advance in price. Pennsylvania would prefer an increased price. Whatever change occurs at all, it is more likely to be one that would meet the Birmingham wishes.

Somewhat increased consumption may be looked for on pine, under normal conditions; but as to price, the future market is a cool one. Mill construction goes steadily on, but it is a cool one. Mill construction goes steadily on, but it is a cool one.

WAR IS NOW INEVITABLE.

An Unfounded Report That Has Been Given His Passport.

FIFTY MILLION DOLLARS FOR DEFENSE.

Will Be Appropriated by Congress—Not Expected to Progress to War.

Washington—Congress Will Uphold the President.

A special to the Age-Herald from Madrid night says:

The bill placing at the disposal of the president \$50,000,000 for defense will be presented through a defense and senate. The bill was introduced at the request of the president.

In asking for it, the president held the members of congress, who he called parliament, as a representative of the nation, and that it would be criminal longer to delay buying war.

The land officials are in consultation tonight considering the various offers to sell ships. The decision has been made to accept the offer of the Spanish Netherlands, one of the greatest naval arsenals in the world.

Spain made an offer for the Spanish Netherlands, one of the greatest naval arsenals in the world.

LONG LIKE STONEWALL JACKSON.

The Feeling in Washington is Growing More Warlike Daily.

It is finally believed at Washington that both Spain and this country are getting on a war footing, not simply in preparation for war, but in anticipation of actual war. Naval officers in the published reports that Spain is buying warships, and predict that sooner or later we will have to go into the open markets for some war.

A naval officer who has been in Spain, but before coming to this country, said: "Our details are all made out. As soon as hostilities begin we who are stationed here, as well as all who are now on shore, will be ordered to sea. But details as to different vessels are all made up ready to be issued as soon as the war begins."

"It will be found," he said, "that Long is like Stonewall Jackson. He is a praying Christian; he will pray hard and short hard."

"Very preparation is being made at Long's orders. He is a complex character, just as Stonewall Jackson was. It is the stress now which show the man in his true coloring."

TRADE IS NOT DISTURBED.

By the Wild War Stories Affairs, Says Dun.

GRAIN AND COTTON MARKET STRONG.

An Immense Pig Iron Output—All Signs Point to an Unprecedented Year Volume of Trade—New York.

R. G. Dun & Co.'s weekly review of trade says:

Stories of the most reckless sort, distorted promptly, and many of them before they are half affected, speculation in stocks much last week, but they have not disturbed the industries and the trade of the country at all. There is a confidence that the authorities are doing what is proper to provide for public defense, and business is moving on with the assurance that it will not be disturbed. In grain, cotton, meat products and iron, markets have been strong, with gradual increases in the demand for manufactured products.

Failures in February have caused a large amount of business to be done in the previous fifty-two months, with remarkable decrease in the failure for \$100,000 and over, though in number and amount the smaller failures show a decline than might have been expected, indicating that in good times there are fewer failures.

The death rate at St. Juan, Cuba, is the lowest since the last time the death rate was reported. It is also stated by the latest returns from the postmaster.

THE NEWS OF A GREAT STATE.

SHIPPING COTTON TO JAPAN.

Shipment of Cotton and Pig Iron Through the Port of Mobile Rapidly Increasing.

The departure of vessels from Mobile and New Orleans direct to the ports of Japan with Alabama cotton and iron on board has been a recent phenomenon of southern trade development that has given rise to very interesting speculation.

The New Orleans Times-Democrat of Saturday says: The British steamship (London) T. Trotter, captain, cleared yesterday morning for ports in Japan loaded with 12,000 bales of cotton and 3,500 tons of pig iron. She is expected to reach Yokohama, Japan, in about ten days.

The ship is the pioneer shipment of cotton to Japan direct from the port of New Orleans. The railroad party loaded at Mobile, finishing at New Orleans, but entire cargo being made up as follows:

From Mobile to Yokohama, 3,500 bales of cotton; from Mobile to Yokohama, 3,500 bales of cotton; from Mobile to Yokohama, 3,500 bales of cotton.

GASTON A. ROBBINS.

For Congress of the Ninth District, Hon. JOHN T. MCNEELY.

Of Jefferson.

TO THE VOTERS OF THE FOURTH CONGRESSIONAL DISTRICT.

YANKEE, ALA., Oct. 10, 1898.

Editor Time-Piece.—It is well known that I have fully decided to retire from politics, but under the circumstances I am doing so in a way that will not be a detriment to the coming congressional election, and I believe that it behooves all who place themselves on record on the 8th day of November, 1898, and who have been credibly informed that the report is prevalent that I have resigned from the office of Representative in the coming election, will say that I have always supported him when he was before us for office, and today as just as strong for him as ever in my life, and shall be as so long as he continues fighting for the voice of the people at the ballot boxes of this district.

Colonel Aldrich is the only man that we have found that has the backbone and nerve to say to the people of his district: Your votes shall be counted as cast. Will now say if there has been any hard or cold feelings between any of the voters of this district and Mr. Aldrich, for God's sake and the sake of you have for your family and good government, every man come to the polls on the 8th day of November and vote for Hon. W. F. Aldrich, who has spent thousands of dollars in having your votes counted as cast, and we hope and believe that his majority in this race will be so large that he will receive a certificate of election from the state authorities and will not be forced to contest for a seat in the Fifty-sixth congress.

I hope that this will settle the matter as to how I shall vote the November election.

Yours truly,

James L. YANKEE.

Ex-Chief of Reps. County Committee.

(From The Advocate.)

Mr. Dean's official title is "Chairman of the Alabama campaign committee." He represents no party, but a combination of Negroes and machine men, the latter calling themselves "Chromatists."

What have our friends the Chromatists, Mr. Dean represented a majority of the voters of the district, but he is white politician and not of colored blood.

There is one thing more, he does not represent the white machine, but he will fight them like a dog.

The Chronicle is in the middle of a bad fix just now.

Mr. Aldrich will not stop the district with Robbins, and it knows that Robbins will not stop at anybody's "no speaking," and if Mr. Aldrich had accepted the challenge it would have given Mr. Robbins a chance to air his lungs to the people. The Chronicle knows how it is. Judge McMillan refused a joint discussion with Mr. Longshore, and the consequences were McMillan got no hearers. They know they have to go along with our candidates to get anybody to speak to.

W. F. Gist says everybody is invited to hear Mr. Robbins speak, so they may be able to choose between him and his opponent. That is decided on. They will not vote for a man that accepted a seat in congress that was never elected to that decision is made and rendered, and that is to vote for a man that has more interest in the people than mere holding office.

DON'T.

Don't forget that the democrats want big populists and republicans as retreating officers. Vote against them and show them who has the nerve.

Don't forget that you can get 10 cents for your cotton just as easy as you can get 41. All you have to do is to let the democrats of the sum in congress have an increase of vote of money.

Don't let a fool on Monday, November 8th.

WILSONVILLE, ALA., Oct. 21, 1898.

DEAR GENTLEMEN:

The Time Piece seems to be better every hour. I feel ever of his race give it their moral and financial support, and let us have a journal equal to any in the state.

I enclosed find P. O. money order for 35 cents, for which send the Time Piece for three months to Mr. G. N. Nathan of this place.

We are expecting to comply with the "Don'ts" of the Time Piece.

Yours fraternally,

E. L. M. WALKER.

Do.

Don't forget that Hon. W. F. Aldrich has done a great deal and will do more for the republicans of Alabama.

Don't forget that several colored republicans have been placed in position through the influence of Hon. W. F. Aldrich.

Don't forget that Hon. W. F. Aldrich belongs to the party which suffered that slavery might be abolished; that slave might have the right to vote the republican ticket.

Don't go to the polls on the 8th of November unless you will vote right, for the right man, the man who is making it so that votes will be counted as cast.

Don't be humbugged by any false report you may hear concerning Mr. Aldrich.

Don't believe anything that Mr. Aldrich's enemies may tell you, as money will tell and do anything for defeat. If you don't believe it notice the evidence in the contest cases of Mr. Robbins, also Aldrich and Robbins.

Don't vote against the interest of your wife and children, by voting for Mr. Robbins.

Don't you know Mr. Robbins is too weak to run against Hon. W. F. Aldrich who has—morally, financially and intellectually—

SONG.

Don't you know Mr. Aldrich will be the next congressman of the Fourth congressional district to the Fifty-sixth congress? You didn't? Well, he will.

Don't you know that Mr. Aldrich is such a good man that the populists have admired him and will help us to elect him? You didn't? Well, they did, and will help to elect him.

Don't you know Hon. W. F. Aldrich is one among the best men on earth, politically? You didn't? Well, he is.

Don't you know the Time Piece has heard from all the best in this district, with a few exceptions, and finds that the man wanted in Hon. W. F. Aldrich? You didn't? Well, it is true.

FAVOR A NEW CONSTITUTION.

Committee Has Outlined Plan of Action

and Will Be Aggressive.

One of the most vital questions

before the present Alabama

assembly which met Tuesday, is that

calling a constitutional convention.

The committee, which was appointed

by the State Commercial and Indus-

trial Association some time ago, has

decided that the time is ripe for an

aggressive campaign for a new consti-

tution, and resolutions were adopted

advising that the work be pushed

forward, taking negro suffrage as the

main issue and giving the people a

guarantee that the general provision

of the present constitution on the sub-

ject of taxation shall be preserved and

the limitations in their essential fea-

tures remain unchanged. It was the

opinion of all that a reform of the

constitution is the paramount issue, and

the wisdom of the convention will in-

sure protection on all necessary issues.

ADDRESS TO ALABAMA FARMERS.

Commissioner Cultures Delivers Whole-

some Address to Farmers.

Hon. I. F. Culver, state

commissioner of agriculture, has issued

the following address to the farmers of

the state:

"The time has come when it is an

actual necessity for the farmers of

Alabama to about face and change

their mode of farming. Low prices

for a time at least, is here to

stay. Texas, Indian Territory and

Oklahoma will in the near future

gather from five to six million bales

of cotton. The older states, Georgia,

North and South Carolina, Tennessee

and Alabama will have to abandon the

old cotton system and go to something

else, for we cannot compete with the

rich lands of the west and raise cotton

at 3 and 4 cents per pound. Then

what shall we do? Turn our atten-

tion to the raising of stock, and there-

by the building up, and improving of

our stock, and the improvement of

our soil. We should not plant any

land in cotton that will not net us

one-half to one and one-half cents

per pound. We should not plant any

land in cotton that will not net us

one-half to one and one-half cents

per pound. We should not plant any
